

ELECTRICAL ENGINEER

TES Engineering is a fast growing consulting engineering firm with offices in Westlake. Our firm's reputation is based upon our offering excellent engineering coupled with an unparalleled level of customer service. We seek a qualified Electrical Engineer who shares our beliefs about client service to join our electrical engineering department.

Responsibilities include lighting, power and fire alarm design and specification, performing lighting, power and circuit loading calculations, producing drawings and specifications for use by the construction industry, and managing projects and client relationships.

We require an individual to have 3-5 years of demonstrated experience with electrical design (lighting, power distribution, and fire/security systems) in the building and construction or facilities engineering industries, a BSEE, and AutoCad proficiency. We prefer an individual with a PE designation.

We offer very competitive compensation and full benefits, as well as a fun and flexible working environment.

So tell us about yourself.

Please send your resume in Word format, along with your wage requirements, in complete confidence to:

Hugh Fisher at hfisher@tesengineering.com.

Please put **Electrical Engineer** in the subject line of your e-mail.

We are an equal opportunity employer.
