

MECHANICAL ENGINEER

TES Engineering is an award-winning consulting engineering firm with offices in Westlake. Our firm's reputation is based upon our offering excellent engineering coupled with an unparalleled level of customer service. We seek a qualified Mechanical Engineer who shares our beliefs about client service to join our electrical engineering department.

Responsibilities include heating and air conditioning specification, duct and piping specification and design; performing heating, cooling and energy calculations; producing drawings and specifications for use by the construction industry; managing projects; and client contact.

We seek a talented individual with 3-5 years of demonstrated experience with mechanical design in the building and construction or facilities engineering industries, a BSME, and AutoCad proficiency. We prefer an individual with a PE designation.

We offer very competitive compensation and full benefits, as well as a fun and flexible working environment.

So tell us about yourself.

Please send your resume in Word format, along with your wage requirements, in complete confidence to:

Hugh Fisher at hfisher@tesengineering.com.

Please put Project Coordinator in the subject line of your e-mail.

We are an equal opportunity employer.
