

DRAFTER AUTOCAD MECHANICAL DESIGN

TES Engineering is a growing consulting engineering firm with offices in Westlake. Our firm's reputation is based upon our offering excellent engineering coupled with an unparalleled level of customer service. We seek a qualified AutoCAD drafter who shares our beliefs about client service to join our mechanical engineering department.

Responsibilities include AutoCAD drafting and red-lines utilizing templates, formats and standards to ensure a consistent and professional construction document look; as well as HVAC and plumbing design as directed by project engineers and project managers.

We are looking for an individual with appropriate training in drafting and AutoCAD (associate's degree preferred). Demonstrated AutoCAD skills and the ability to create professional construction documents. Ideally, experience in drafting HVAC and mechanical systems for buildings; Revit experience a plus!

We offer very competitive compensation and full benefits, as well as a fun and progressive working environment. We are an equal opportunity employer.

So tell us about yourself.

To apply in confidence, please send us your resume in Word format, along with your current salary or desired salary range, to: Hugh Fisher at hfisher@tesengineering.com.
