

Project Manager

TES Engineering is a growing consulting engineering firm with offices in Westlake. We are a multiple-time winner of the NorthCoast99 Award for best places to work, winner of the Leading Edge Award, and 4-year winner of the Inc. 5000 Fastest Growing Companies.

We design the mechanical, electrical and plumbing systems that bring buildings to life and make them function for the people who use them. Our clients are diverse and include high profile national clients such as Apple, Forever 21, H&M, Uniqlo, and Lululemon.

We seek a talented individual to join the team in a Project Manager role. In this role, you will be responsible for managing diverse projects across all MEP disciplines, including the development of proposals and project estimates and budgets; development of detailed project plans and schedules; ongoing management of engineering projects; communicating with customers to obtain information and provide status updates; coordinating with outside resources such as utilities, municipalities, architects, and contractors; conducting code research; and a variety of other activities that ensure smooth running projects.

What you should bring to the table is 5+ years of demonstrated project management experience in engineering, architecture, building and construction or facilities engineering industries, a technical degree, exposure to AutoCad, as well as strong project management skills.

We offer very competitive compensation and full benefits, as well as a fun and progressive working environment.

To apply in confidence, please send us your resume in Word format, along with your current salary or desired salary range, to: Hugh Fisher at hfisher@tesengineering.com.

We are an equal opportunity employer.
